

Reports from the Field

Industrial Facility - OI Plant

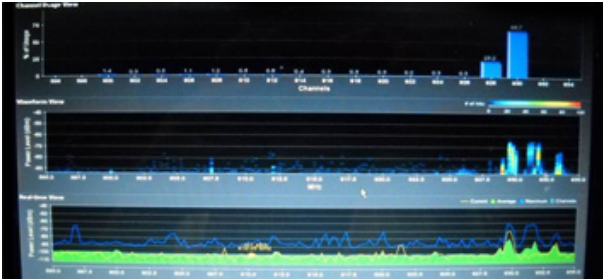

1.2 Million Square Feet - Roughly 1 Million Bottles a Day

Typical Risers Surrounding the Plant
Monitoring
Risers
External Water Flow
Tamper

Building Divided by Two Extreme Temperatures
High Temps of 100+ Degrees
Ambient Temperature

PC Based Spectrum Analyzer
From 902 to 928Mz Range there is only Ambient Background RF

Roughly 35 Repeaters throughout the Facility
All Repeaters will be in NEMA 4 Enclosure for Mechanical Protection

CWSI Headquarters - (954) 318-6005
10798 NW 53rd Street, Sunrise, FL 33351

Announcements

CWSI is pleased to introduce Chuck Caudill as our new Southeast Regional Manager. Chuck has enjoyed a successful career in the fire alarm industry since 1996. Along with NICET certification, Chuck is factory certified with Notifier-Net, Notifier Onyx Platform, Silent Knight Systems as well as CWSI wireless fire alarm systems.

CWSI will be expanding its field representation in the upcoming months by appointing Southwest and Mid-West Regional Managers.

- **Model 350 Wireless CO Detector**
- UL 2075

Q1 Product Submittals

- **Remote Wireless Annunciator**
- **Remote Wireless Reset Transmitter**
- **Wireless Heat Detector**

Technical Updates

NEW YAGI CABLE
CWSI now offers new Yagi Antenna Cables that will provide increased transmission and reception in installations. The cables are available in lengths of 30' and 70'. The 70' cable offers the installer more flexibility and design options on those difficult installations. The Yagi Antenna will continue to ship with the standard 30' cable unless the 70' version is specified.

REPEATER ENCLOSURE
Terra-wave/TESSCO has designed an enclosure suitable to house the AR3 Repeater in outdoor locations. The enclosure is heated and ventilated with replaceable air filters. Please [click here](#) to view the cut sheet. Dealers can order the enclosure from www.TESSCO.com

Login
Please review Pete's tech tips under the Dealer Login
